

ALCORN COUNTY ELECTRIC POWER ASSOCIATION

TEMPORARY SERVICE CONTRACT

The undersigned, _____, seeks temporary service with Alcorn County Electric Power Association (ACE) at the address of _____.

Temporary Service is defined as any account in which service will only be activated for a period of time less than 90 days. A membership fee will be required of all members seeking temporary service. A security deposit may also be required.

By signing this contract, the member agrees to all applicable policies and procedures outlined by ACE. The member also understands that ACE will bill the member a one-time temporary service fee that will be billed out on the first billing statement. Upon execution of this contract, the member will have a period of 90 days with active temporary service. At the end of the 90 day period, a service order will be made to disconnect power at the location.

If the member wishes to extend the temporary service period, a new Temporary Service contract must be signed, at which time the temporary service will be extended an additional 90 days. Upon the completion of construction of a new property, it is the responsibility of the member to state whether the property is being used for residential or commercial purposes. Failure to notify ACE of the completion of construction will result in the member's account remaining on a commercial rate.
